

LECKEY

**Say hello to the
Leckey family
of products.**

I am delighted to introduce our Leckey product guide and celebrate our Leckey family circle.

At Leckey we believe in **'Supporting Children'**.

To everyone in Leckey, Supporting Children means working together with our family of experts – designers, therapists, parents and the broader clinical community to achieve our goals.

Our **Mission** is; To improve the quality of life of children with special needs.

Our **Vision** is; A world where each child is included and they can access their full potential.

Our **Courageous Goal** is; To prevent hip migration in children.

In Leckey we see hip migration as the single biggest life event that our children may experience and has the greatest impact on their quality of life and their carers from that moment on.

Everything we do in Leckey, in partnership with our family of experts, is aimed at achieving these goals.

Our approach is simple – lead through innovation and clinical focus.

Through early intervention, childhood right up to adulthood, Leckey's experienced team of designers and clinicians work together with our family of experts to develop exciting innovative products that make a real difference to the quality of life for the children and their families.

We aim to develop clinically and technically superior solutions, products and programs, that improve the child's Mobility, Ability and Participation.

All of our designs undergo extensive clinical and usability trials with physiotherapists, occupational therapists, users and their families.

They are supported by in-depth clinical research studies where we work with leading universities and clinicians internationally to ensure that all Leckey products deliver on the clinical needs of the healthcare professionals and the social needs of the user.

We are excited to be part of the Sunrise Medical family and together we are committed to our Mission, Vision and Courageous Goals and Improving People's Lives. We want to work with you in partnership to build our family - a community of experts with shared goals and values.

Join our family and together we will make a difference,

Catherine Griffiths
General Manager & Finance Director

LECKEY

Seating and Positioning

LECKEY Early Activity System

Colorful, comfortable, supportive activity system for children aged 0-48 months.

Product Features

- Offers a gentle, playful introduction to 24-hour postural management.
- Practical all-in-one kit, providing versatile support. The positioning possibilities are endless and everything can be packaged up in the duffle bag for easy transport.
- Supplied with the popular Activity Development Programme which supports parent-led therapy at home.
- Soft-touch, anti-bacterial, machine washable and tumble dry safe covers.

Key Positions

- Back Lying (Supine)
- Tummy Lying (Prone)
- Side Lying
- Floor Sitting (Long sitting)
- Hands and knees (Four point kneeling)

LECKEY Pal

Colourful, comfortable classroom seating system providing mild support for children aged 1-12 years.

Product Features

- Two-point lap belt and side pads for lateral stability. An optional ramped cushion can be added if extra help is needed to keep the pelvis and femurs in alignment.
- Where a less upright angle is required, the backrest angle and armrests adjust to suit the child's needs, and along with the large tray or table, provide appropriate support.
- Height adjustable armrests, legs and footplate.
- Available in two bright colors in wipe clean fabric [please see website for details].
- A range of base and footrest options available, including castors, rockers and stabilisers.

Available in 2 fabric colours

LECKEY Everyday Activity Seat

Strong, durable, practical and adjustable seating system, providing moderate support for kids and young adults aged 1-18 years.

Product Features

- Ideal for everyday use- the soft-touch breathable fabric, well-padded ramped seat cushion, contoured back cushion and padded arm rests combine to offer the ultimate in comfort.
- The wide range of accessories and options make it easy to adjust the seat as the user grows and their needs change.
- The flip-up footplate, hi-low base [to floor], long armrests and 10° prone tilt-in-space support self-transfers.
- 4-point pelvic harness gives a secure, stable base of support.
- Height and angle adjustable chest laterals available.
- Easy care – covers can be removed and machine washed.

Available in blue vinyl

LECKEY Squiggles Seat

Suitable for use as a home chair, school chair or with a mobility base, Squiggles meets all the postural and comfort requirements of a seating system for young children with special needs, while maintaining a fun, colorful design.

Product Features

- Designed specifically for the developmental needs of younger children- the one-piece seat base and adjustable sacral support can be used to accommodate flexion or encourage extension.
- The shape of the seat and back, the laterals with their fabric tip which wrap securely around the child and the way in which the 4-point pelvic harness integrates with the hip pads, provides a snug, comfortable fit and streamlined look.
- Being low to the ground, the Squiggles Seat promotes peer to peer interaction, making it ideal for home and nursery/school environments.
- Adjustable footplate can be tilted to the preferred angle, ensuring the feet are well supported and providing a secure base for maximum upper body function. The footplate flips away to allow for easy transfers.
- Tilt-in-space feature provides a simple way to achieve a change of position without disturbing overall posture.

Available in 3 fabric colours

LECKEY Mygo Seat

The Mygo offers postural support while enabling function and mobility. It is available in two sizes for children aged 3-14 years.

Product Features

- Pelvic Cradle with independent hip guides provides more proximal positioning for children with high tone. The flexible adjustment in the back section can encourage a posteriorly tilted pelvis into neutral alignment, and the overall design prevents users sliding forward.
- The Mygo Seating System's innovatively designed split seat base enables the legs to move independently beyond the midline to accommodate windsweeping postures. A range of up to 13° abduction and 10° adduction may be achieved whilst offsetting the hip guides can aid in accommodating more extreme windsweeping by providing additional space.
- The multi-adjustable 4-point pelvic harness on the Mygo Seating System ensures stability of the pelvis by providing support across the anterior superior iliac spines (ASIS). The 4-point attachments (two at the hip guides and two at 90°) mean that the harnesses stay in the correct anatomical position.

LECKEY Seating on ZIPPIE® Mobility Bases

Perfectly designed for the unique needs of children, the Squiggles, Mygo and BeMe seating systems help to support everyday functions at home and in the classroom.

Combined with a range of bases, LECKEY seating systems support functioning while exploring out and about.

Product Features

- Leckey's interface range enables the Squiggles, Mygo and BeMe Seats to be fitted onto a range of mobility bases within Sunrise Medical's ZIPPIE and QUICKIE ranges.
- Greater choice and flexibility for Leckey seat users.
- Offers mobility with optimum support and comfort.
- Increased freedom for the user.

LECKEY BeMe

A family of configurable, supportive seats designed to grow and adapt with every child throughout every stage of life.

Product Features

- Infinitely configurable pediatric seating system available in four sizes and three clinically appropriate support levels to meet mild to complex postural needs.
- Modular design with interchangeable backrests, seat bases, and accessories allows the seating system to evolve as a child's needs change.
- Patented growable foam and 4-way stretch covers provide up to 5" (12 cm) of seamless growth without inserts, gaps, or additional hardware.
- BeMe Basic features a growable ramped cushion and supportive back for active children requiring mild-to-moderate postural support.
- BeMe Moderate provides enhanced pelvic and trunk stability through a growable contoured cushion and adjustable lumbar support.
- BeMe Advanced offers precision positioning for complex postural needs with a multi-adjustable split seat base and innovative 3D backrest.
- Compatible with the LECKEY Hi-Lo Base, and ZIPPIE® IRIS.
- Cross-compatible options and accessories simplify adjustments and support long-term adaptability.

LECKEY

Standing and Gait Trainers

LECKEY Squiggles Stander

Versatile, supportive, compact stander which offers the perfect start to standing for little ones.

Product Features

- 3-in-1 prone, supine and upright stander.
- Ideal for home use due to ease of adjustments.
- Minimalist child-focused design with fun bright pads blends easily into nursery/ school environments.
- Low to the ground, encouraging socialization and interaction at eye level.
- Individually adjustable chest and pelvic supports are cushioned for comfort and adjust easily in height, width and angle to suit individual needs, ensuring a comfortable and secure position.
- Frame can be easily disassembled for storage and transportation.

Available in 3 fabric colors
and a vinyl version

Tray Angle Adjustment	30° - Prone 40° - Supine

LECKEY Squiggles+

The Squiggles+ retains the best of the Squiggles stander but also offers heaps of added benefits so little ones can continue to enjoy standing and be part of the action.

Product Features

- Anatomically-correct abduction to stabilize the joint and provide optimum loading for early hip joint development. Squiggles+ offers 60° of hip abduction bilaterally in prone, upright or supine. It promotes proper alignment in the hips, knees and feet as pivot points are in line with the hips.
- Increased comfort and support with wrap-around knee supports. The comfortable medial knee supports distribute pressure and are especially suited to abducted standing. The padded wraps maintain the knee in neutral alignment.
- Providing greater confidence with transfers- the larger hip pads improve the carer's and child's confidence and feeling of security when transferring. The improved pivot chassis facilitates full horizontal loading.
- Activity tray with improved height and adjustability.
- Height-adjustable, foldable push handle.

Available in 3 fabric colors

LECKEY Mygo Stander

Strong, practical and adjustable standing system for kids aged 4-14 years.

Product Features

- 3-in-1 prone, supine and upright stander.
- Designed to improve upper limb function. The chest pad design replicates the shape of the rib cage which allows the shoulder girdle to freely protract and retract in prone, while in supine, the shoulder support promotes shoulder protraction. Furthermore, Mygo offers a lower tray height than most standers.
- Accommodates hip and knee flexion contractures of up to 25 degrees. The movement of the footplate and knee supports are linked which allows the user to stand with hips and knees flexed. This results in a more upright posture combined with the ability to support users whose contractures previously made them unsuitable for standing therapy.
- Use of the pelvic derotation belt puts the user's pelvis in a central and neutral position with minimum effort.

Available in 3 fabric colors

LECKEY Horizon

Robust, durable 3-in-1 stander
for users aged 4 years to adult.

Product Features

- Accommodation of leg length discrepancy, scoliosis, lumbar lordosis, kyphosis, knee flexion contractures and asymmetrical head position. The frame's growth potential and the wide range of accessories accommodate changing need and potential asymmetry as the user grows.
- Perfectly sized for hoisting and supine standing. The large landing space for hoisted transfers coupled with support pads which provide a proximal fit to suit each user provides the perfect combination.
- Robust, stable and durable frame ensures ongoing confident product use.
- Individually adjustable chest, hip and knee pads as well as footplates provide unsurpassed levels of adjustability.
- Height adjustable hip laterals and pelvic belt, enabling de-rotation of the hips, alignment of the pelvis and centre of gravity over the base of support.

Available in grey and grey vinyl.

LECKEY Pronestander

Robust, adjustable prone standing system for users aged 1-18 years.

Product Features

- Flip-up sandals support users completing a standing transfer directly into the product.
- Long base ensures maximum stability for even the most active users, providing caregivers with peace of mind.
- Unique de-rotation belt and pelvic pad work together to keep the user in a central position within the frame with equal pressure over each foot.
- Individually adjustable chest, hip, knee and sandal supports to meet a wide range of clinical needs.
- Easy to set up and adjust with five incremental secure prone positions from 85 to 45 degrees.

LECKEY Freestander

Robust, upright standing system for users aged 1-18 years.

Product Features

- Flexibility to alter the frame to meet individual user needs e.g. pelvic support can be removed for users with trunk control, conversely, the tray height and angle can be increased where more support is required. A simple, active set-up is also possible for more able users e.g. hemiplegic or GMFCS II/III.
- Straightforward, intuitive adjustment as all supports run off two vertical uprights.
- Pelvic belt achieves a unique position which enables de-rotation of the hips, alignment of the pelvis and centre of gravity over the base of support as well as accommodation or correction of flexion at the hips and knees.

Size 1 only available in Meadow Fabric. Size 2 & 3 only available in Mondeo Fabric.

LECKEY Totstander

Simple and easy to use, upright standing system for kids aged 1-5 years.

Product Features

- Can be used as a stander or by therapists for standing assessments.
- Promotes active standing, movement and weight shift.
- Compact and easily transported to different environments e.g. from therapy centres to the home.
- Provides a gentle introduction to rehab equipment via a simple, easy-to-use, child-friendly design.

Available in 1 fabric colour combination

Base Depth	450mm (17.7")
Base Width	450mm (17.7")
Max. User Weight	22kg (48lbs)

LECKEY MyWay+

MyWay+ is a unique open frame gait trainer designed to support children in an upright, hands-free position. This improves stepping to maximize opportunities for exploration, interaction, and participation.

Product Features

- The unique corset-like harness gives core trunk stability for optimal stepping pattern and active movement. The MyWay+ harness provides the support required for users to develop head and limb control. Its hug-like effect increases sensory feedback, dampens involuntary movement and increases confidence and the chance of succeeding.
- MyWay+'s open-front, hands-free frame maximizes opportunities for exploration and participation. The open design also allows therapists to get close to the child and work with their lower limbs while they are in MyWay+, facilitating guided movement.
- MyWay+'s newly developed indoor/outdoor casters enable children to be active in lots of different environments. These casters are multifunctional and offer braking, direction lock, anti-roll-back protection, and resistance to assist steering, prevent backwards movement, and limit speed as required. The versatility of these casters allows the MyWay+ to be tailored to the individual child's needs, helping to maximize their opportunity for use and further promoting function. It is the only gait trainer that offers a side stepping feature.
- Range of optional accessories available to meet individual requirements, including adjustable headrest, narrow saddle, user handles, and ankle guides.

**Narrow Saddle &
Drop Attachment**

**3-Way Adjustable
Headrest**

**3-Way Adjustable
User Handles**

MyWay Pedal

The MyWay Pedal is an innovative option for the MyWay+ that introduces elliptical stepping motion in standing to promote reciprocal movement, weight-bearing, and activation of anti-gravity muscles. Designed to support progressive therapy, it can be used passively or actively as children develop strength, coordination, and gait-related movement patterns—while making therapy engaging and fun.

Harness available in 6 fabric colours

Nuprodx[®] Bath Mobility

with LECKEY Advance Bath Chair

Safe, supported access to the bathtub or shower with fewer transfers and less lifting.

The Nuprodx Mobile Systems pair with the LECKEY Advance Bath Chair to provide safe, supported access to the bathtub or shower. With a single bedside transfer, children can be moved smoothly into position for bathing while reducing lifting demands on caregivers.

Product Features

- **Easy Slide-Over Tub Access** – The Nuprodx Mobile Tub Slider System combines the MC6000 Ped transfer base with the LECKEY Advance Bath Chair. The bridge slides smoothly over the tub wall, eliminating lifting and simplifying transfers for caregivers.
- **Easy Roll-In Shower Access** – The MC4000 Ped Mobile Shower Chair provides smooth mobility into barrier-free showers, making bathing safer and more convenient.
- **Toileting Option Available** – Size 5 is available with a range of commode cushion sizes and openings, allowing it to roll over most toilets and support toileting needs.
- **Built to Last** – Constructed from corrosion-resistant aluminum, brass, and stainless steel for years of dependable use in wet environments.
- **Portable Design** – Lightweight and easy to move between bathrooms or for travel.
