VOYAGE
MAKES NO
COMPROMISES
WHEN IT COMES
TO WHAT'S
BEST FOR BABY

1. Canopy with Mesh Window

Keep baby shaded during the day, and open the mesh window to check in.

2. Angle Adjustable Stroller Handle

One-handed steering that adjusts to caregiver heights.

3. Quick Adjust Tilt

Effortlessly tilt forward or rearward for positioning needs.

4. Reversible Seating

Easily place the seat facing towards the caregiver, or let baby face outward to interact with their environment.

5. Transit Approved

The Voyage has been crash tested and is approved for occupied transit in a motor vehicle.

6. Carry-All Storage Basket

Store up to 15 lbs. of essentials.

7. Foot Operated Wheel Locks

Hands free! Lock wheels in place easily with your foot.

8. Airless Wheels

Flat tires are a thing of the past with airless wheels.

9. Swivel Front Wheels with Suspension and Lock-Out

Maneuver around obstacles with confidence, knowing baby is comfortable and secure. Lock-out the front wheels for smooth tracking during longer strolls.

WHEN IT COMES TO SEATING, OUR NUMBER ONE PRIORITY IS POSITIONING YOUR CHILD FOR HEALTHY GROWTH AND DEVELOPMENT

Voyage Moderate Seating (VMS)

Designed for children with mild to moderate positioning needs. Offers soft, adjustable components and polka dot upholstery with colored accents.

Voyage Advanced Seating (VAS)

Designed for children with moderate to advanced positioning needs. Offers an extensive selection of seat options and adjustable components, and black stretch upholstery with colored piping.

Reversible Seat

Face the seat toward you to interact with your child, or forward so your child can explore their surroundings.

Positioning Accessories

Whitmyer® head supports, lateral trunk supports, anterior trunk supports, medial supports, and hip supports create a seating system that is entirely unique to your child.

Positioning accessories can be moved and adjusted to maintain proper support for your child as they grow.

Butterfly Harness

Positioning Belt

Rearward (Posterior) Tilt & Recline

Improves positioning to assist with feeding, digestion, respiratory function, and visual orientation. Posterior tilt range of 0° to -30°.

Forward (Anterior) Tilt

Assists with positioning to encourage healthy development such as bringing hands to the mouth, reaching for objects, or engaging in activities. Anterior tilt range of 0° to +5°.

Height & Angle Adjustable Footrest

Grows with your child and adjusts for various needs throughout the day.

JCM Hi-Lo Base

Allows your little one to engage in activities at the table or on the floor, while being supported to meet his/her needs.
